

**The Radiological Society of Thailand  
and The College of Radiologists of  
Thailand 35th Annual Scientific  
Meeting  
27 March 1998  
The Medical Association of Thailand  
Building, Bangkok**

**Recent advances in nuclear medicine instru-  
mentation-towards quantitative imaging.**

*Stig A. Larsson, Ph.D.  
Karolinska Hospital, Sweden*

**Effect of the compensation for attenuation,  
scatter and detector response on cardiac  
SPECT imaging.**

*A. Krisanachinda, Ph.D.  
Chulalongkorn University*

**Development of LAN for file and peripheral  
sharing between different computer systems  
in nuclear medicine.**

*R. Chanachai, Ph.D., Siriraj Hospital*

**Specially designed cameras for SPECT of the  
brain.**

*Stig A. Larsson, Ph.D.  
Karolinska Hospital, Sweden*

**Optimization of samarium-153 labeled  
hydroxyapatite particles as the agent for  
radiation synovectomy.**

*A. Aungkurarat, et al.  
Isotope Production Division,  
Office of Atomic Energy for Peace,  
Bangkok, Thailand*

**Analysis and preparation of  $^{99m}\text{Tc}$ -L,L-EC  
for kidney function investigation.**

*J. Saengsurat, et al.  
Isotope Production Division,  
Office of Atomic Energy for Peace,  
Bangkok, Thailand*

**Role of  $^{99m}\text{Tc}$  DISIDA scintigraphy in infants  
with suspected of biliary atresia  
: A 6-year experience.**

*M. Ekmahachai, M.D., et al.  
Chiangmai University*

**Analysis and assessment of radiation hazards  
to radiation workers in administering I-131  
therapeutic doses to hyperthyroid patients.**

*P. Buranapong, Siriraj Hospital*

**The standardization of I-131 treatment for  
hyperthyroidism with an intent to optimize  
radiation dose and treatment**

*V. Buachum, M.D., Chulalongkorn University*

---

### **1<sup>st</sup> Scientific Meeting Nuclear Medicine Society of Thailand**

**14 August 1998  
Ramathibodi Hospital, Bangkok**

**The efficacy of premedication with Pentagas-  
trin or Pentagastrin plus  $\text{H}_2$ -receptor blocker  
(Ranitidine) in the evaluation of Meckel's  
diverticulum in children.**

*S. Tepmonkol, M.D.  
Chulalongkorn University*

**$^{153}\text{Sm}$  treatment for metastatic bone pain.**

*S. Rajchadara, M.D.  
Pramongkutklao Royal Army Hospital*

**Radionuclide therapy in Western Australia.**

*P. Chaudakshetrin, Siriraj Hospital*

**PET and molecular coincidence detection.**

*T. Narawong, Rajavithi Hospital*

---

**2<sup>nd</sup> Scientific Meeting & Workshop  
Nuclear Medicine Society of  
Thailand and Nuclear Cardiology  
Society of Thailand  
19 November 1998  
The Medical Association of Thailand  
Building, Bangkok**

**Cardiologist viewpoint.**

*S. Chaithiraphan, M.D., Siriraj Hospital*

**Myocardial perfusion imaging.**

*V. Ratanamart, M.D., Siriraj Hospital*

**Viability assessment.**

*S. Boonbichaiyaprug, M.D., et al.  
Chiangmai University*

**Evaluation of cardiac function  
: First pass, Planar, Gated SPECT.**

*A. Krisanachinda, Ph.D., et al.  
Chulalongkorn University*

**Infarct avid imaging.**

*S. Boonvisuthi, M.D.  
Chulalongkorn University*

**The follow up myocardial perfusion scan by  
<sup>99m</sup>Tc MIBI after PTCA.**

*S. Rajchadara, M.D.  
Pramongkutklao Royal Army Hospital*

**Nuclear cardiology at University of  
Massachusetts.**

*Y. Saengsuda, M.D.  
Rajavithi Hospital*

**Symposium on investigation of renovascular  
hypertension.**

*T. Suthichaiyakul, M.D.  
Chulalongkorn University*

*R. Sirisriro, M.D.  
Ramathibodi Hospital*

*S. Sirisalipoch, M.D.  
Chulalongkorn University*

---

**Regional workshop on  
cardiac SPECT for nuclear medicine  
technologists  
25 January - 5 February 1999  
Chulalongkorn hospital, Bangkok**

---

**The Radiological Society of Thailand  
and The College of Radiologists of  
Thailand 36th Annual Scientific  
Meeting  
19 March 1999  
The Medical Association of Thailand  
Building, Bangkok**

**Tc-99m DISIDA cardiac retention index in the  
differentiation between biliary atresia and  
other causes of neonatal jaundice.**

*C. Somboonporn, M.D., et al.  
Khon Kaen University*

**Technetium-99m labeled red blood cell cine-  
scintigraphy in the detection and localization  
of gastrointestinal bleeding.**

*Y. Saengsuda, M.D., Rajavithi Hospital*

**Diagnosis of an ileal duplication by technetium-99m pertechnetate abdominal scintigraphy: A case report.**

*S. Namvongprom, M.D., et al.  
Chiang Mai University*

**Occurrence of transient hypothyroidism after  
low dose and high dose of <sup>131</sup>I therapy in  
Graves' disease: One year follow-up.**

*N. Vilasdechanon, M.D., et al.  
Chiang Mai University*

**Radiation dose measurements under bone  
density investigation.**

*A. Krisanachinda, Ph.D., et al.  
Chulalongkorn University*

**Digital imaging and communication on  
nuclear medicine: Practical approach.**

*R. Chanachai, Ph.D., et al.  
Siriraj Hospital*

**Symposium on epilepsy**

*P. Pusuwan M.D.,  
Siriraj hospital*

*C. Lochareonkul, M.D.,  
Chulalongkorn University*

*Y. Chinwalunch, M.D.,  
Chulalongkorn University*

*T. Desudchit, M.D.,  
Chulalongkorn University*

**Lymphoscintigraphy**

*Carl Munoz-Ferrada, Ph.D.,  
Director Gammasonics Institute for  
Research and Calibration Pty Ltd.,  
NSW, Australia*

*Prof. David Gillette,  
Clinical Associate Professor of Surgery  
Strathfield Breast Centre, NSW, Australia.*

**Prognostic value of thyroglobulin after thyroidectomy before ablative radioiodine therapy in well-differentiated thyroid cancer.**  
*S. Chiewvit, M.D., Siriraj Hospital*

**Utility of serum thyroglobulin as tumour marker for differentiated thyroid cancer.**  
*V. Boonnamsiri, Ph.D., et al. Siriraj Hospital*

**Thyroid scintigraphy in congenital hypothyroidism: A three-year experience and review of literature.**  
*C. Somboonporn, M.D., et al.  
Khon Kaen University*

**Radionuclide imaging with bone-seeking agent in amyloidosis: A case report with review literatures.**  
*C. Chotipanich, M.D., et al. Chulalongkorn University.*

---

**1<sup>st</sup> Scientific Meeting  
Nuclear Medicine Society of  
Thailand and Nuclear Cardiology  
Society of Thailand  
8 July 1999  
The Medical Association of Thailand  
Building, Bangkok**

---

**Eight months in IAEA.**  
*T. Chaiwatanarat, M.D.  
Chulalongkorn University*

**Role of nuclear medicine in localization of parathyroid gland in a case of tertiary hyperparathyroidism.**  
*K. Kingpetch, M.D., et al.  
Chulalongkorn University*

**Nuclear medicine in the management of breast cancer: An update.**  
*J. Mungkarak, M.D., Siriraj Hospital*

**Samarium-153 labelled hydroxyapatite particles in radiation synovectomy.**  
*P. Pusuwan, M.D., et al., Siriraj Hospital*

**Radiopharmaceuticals training in Australia.**  
*N. Tochinda, Siriraj Hospital*

**Role of myocardial perfusion imaging in coronary artery disease.**  
*V. Ratanamart, M.D., et al., Siriraj Hospital*

**Prognostic implication in coronary artery disease by nuclear cardiology.**  
*Y. Saengsuda, M.D., Rajavithi Hospital*

**TSNC Website.**  
*P. Sritara, M.D., Ramathibodi Hospital*

**Radionuclide angiography for the prediction of short term cardiac death following coronary artery bypass surgery.**  
*S. Tepmonkol, M.D., et al.  
Chulalongkorn University*

**<sup>99m</sup>Tc Pyrophosphate imaging in acute myocardial infarction.**  
*S. Sirisalipoch, M.D., et al.  
Chulalongkorn University*

---

**National workshop on  
I-131 Therapy for thyroid carcinoma  
16-19 August 1999  
Chulalongkorn hospital, Bangkok**

---

**National workshop on  
Scintimammography and  
sentinal node lymphoscintigraphy in  
breast cancer  
8-12 November 1999  
Ramathibodi hospital, Bangkok**

---

**National training course in  
Nuclear Cardiology  
15-19 November 1999  
Siriraj hospital, Bangkok**

---

**National training course on  
SPECT quality control  
13-17 December 1999  
Chulalongkorn hospital, Bangkok**

---
